PROFESSIONAL MEETINGS

The Board of Directors encourages opportunities for staff members to develop increased competence beyond that which they may attain through the performance of their assigned duties through attendance at professional meetings.

For purposes of this policy, a professional meeting shall be defined as:

- A. Any meeting that is related to the activities, duties, or responsibilities of staff members as determined by the Educational Service Provider.
- B. A meeting through which direct value can be derived for the person in attendance for later use in the performance of school duties.

The Educational Service Provider shall prepare administrative guidelines to implement this policy.
